Set-Up

Someone will be in the front to direct you to the set-up location. The team is responsible for bringing their own canopy, serving table, propane cooker, propane, cook stand, and chairs. It would also be useful to have something displayed that gives your chili a name and description. The Myocarditis Foundation will provide a team banner to hang on the canopy or table.

Chili

Chili should be prepared prior to arriving and heated to at least 170° F for 1 hour and kept warm at 140° F for serving. The recipe is up to each team. Bring a meat thermometer. The team is responsible for keeping the chili at a safe temperature during the cook-off.

Chili cannot be made with home canned goods due to health and safety concerns. Each team must bring at least 3 gallons of chili.
